**NEWSTART SEPTEMBER** Continues with the theme of "Rest". Daily, weekly, and yearly rest are all essential for maintaining overall well-being. Daily rest provides short, regular opportunities to recharge, reducing stress and preventing burnout. Observing the Sabbath provides us with weekly rest and offers a deeper reset for mental, emotional, and spiritual renewal while resting in God's presence.

Incorporating physical rest into weekly Sabbath observance also aligns with the body's natural need for recovery. The Bible highlights this principle, saying "There remains, then, a Sabbath-rest for the people of God; for anyone who enters God's rest also rests from their works, just as God did from

His," underscoring the value of taking time to restore both body and mind.

In addition to these, yearly rest—taking extended time off for vacations or personal reflection—allows for more profound recovery, enabling you to step away from the constant demands of life and truly restore your energy and focus.

Incorporating regular daily rest, weekly Sabbath rest, and yearly rest aligns with the natural rhythm of life God has designed. Together, these practices help to enhance physical health, emotional well-being, and spiritual growth, creating a sustainable balance in life and work.
